Dear Ms Dyhr,

We wanted to thank you for taking the time to visit with us at Apple. We enjoyed meeting with you and discussing potential solutions for our future European regional data center.

We have been working with Bent here at Innovation Denmark for a year. He has been very patient listening to our ideal requirements and has been very supportive in our search to find a truly cutting-edge solution. After our chat yesterday, I am even more confident that, together, we will be able to arrive at an innovative solution that raises the bar for sustainability and efficiency in our data center fleet.

Please keep us posted regarding the developments regarding energy taxation, in particular, the tax breaks for larger-scale, industrial energy consumers.

In short, we just wanted to let you know how much we appreciated you taking the time to meet with us and we look forward to seeing you during our site visits.

Kind Regards,

[REDACTED]
