>>
>> Nå, den kommer lige lidt for sent ... :)
>>
>>
>> "You should have no concerns with regard to the Minister's interest or knowledge of the datacentre case. It was not specified in my earlier mail, but minister Lidegaard has been chosen not least for the fact that he has served as Minister of Climate and Energy until recently. He was central in negotiating the current improvements on Energy costs and the clean energy incentives that are proposed for the datacentre solution."

>> Dear Bent,
>> Thanks for arranging this meeting. I think the best time would be anytime after we arrive at Copenhagen. We arrive to CPH airport at 710pm, so anytime after, say, 730pm or at 8pm so that we can find a quiet spot would be great. I will ask _____ about her availability. If she is not available, we could also do the call anytime on Thursday or even Friday morning. We will be in the air from CPH-FRA from 930-1115am, and our flight from FRA-SFO leaves at 2pm.
>>
>> I myself would feel it would be more productive to speak with Minister Olsen-Dyhr as she is more familiar with the project and has been in charge of reducing the tax on electricity for data centers, which I think might provide something that _____ might be able to engage and understand.
>>
>> Thanks again for arranging and best regards,

>> It seem that we have been able to arrange a 15 minutes video or phone conference call with our Minister for Foreign Affairs, Mr. Martin Lidegaard on Wednesday August 13th. The Minister for Foreign Affairs is one level above the Minister for Trade and Development, which you have previously met. Will you and _____ be in Europe that day? What time will work best for you and _____ Would that perhaps be late afternoon after you have arrived in Copenhagen?
